

Hello, fellow theatre enthusiasts. I am Allison Kelly, an upcoming senior, as well as one of your nominees to be your President.

I have a long list of experiences with the Drama Club involving both tech, acting, and a chance in a leadership position. This past 3D I was given the opportunity to codirect along side Jackson Helmholtz. This helped me build my communication skills as well as my leadership skills and quick thinking. I have been head of hair crew twice. One of these time I also acting so it helped me to learn how to balance my time. I have also been on costume crew, lavs crew as well as being a supporting character in Oliver and Peter Pan. I have partaken in every show since my freshman year which is a total of twelve (if I count Clue). I have also acted in five shows outside of the club that has offered me the chance to work with multiple directors and fellow student actors.

If I was to be elected to be your president I would want to work with the communication officers to create a discord for the club. This platform would act similarly to our private Facebook but would be more for the students benefits. Since not everyone can use Facebook this would be another way to disperse information. They could be made for each show or an overall one. Improv could have one too.

My experiences both inside and outside the club have instilled in me great leadership and communication skills. Last summer I participated in a short term exchange program that forced me outside my comfort zone and communicate in new ways. I would use these skills in the position I have been given to expand our club and help expand our connections in the community. I am deeply invested in this club and what to do whatever I can to improve and support it. I will be a listening ear to all concerns and will try to fix some. If deem me fit for these positions please elected me because I will try my best to listen to you.
