

My name is Nai Amber and I'm a sophomore currently, but will be a junior for 2022-2023. I started drama in 8th grade with our production of The Wizard of Oz. Then came back again for the 2019 3D show. For both shows, I was a props crew member. I took the 2020-2021 year off because of COVID but came back for this school year (2021-2022). This school year I was a props crew member for The Little Mermaid, a tech crew for the MTI show, a props head of tech in training for Romeo and Juliet, and the props head of tech for Footloose. As a communications officer I would like to bring organization and above all communication to our drama club members, drama parents, and others. Being a drama club member for quite a few shows means I really know the importance of this part. People need to know when things are happening, whether that be a drama club member or parents checking in on when things are happening for their kids. I'm very good at getting things done fast and correctly. This is probably my biggest advantage for this job because I know the importance of getting things done as soon as possible and the repercussions if something is done incorrectly. I can also do a good job making sure the Dexter Drama accounts on Instagram and others are run nicely and in an appropriate manner. I feel I can be a great help to the drama club if I was put in this position.
