2022-2023 Calendar & questions.

Dexter Daze Parade, Aug 13th 10am: Truck & Officers all set. Lollipops/ flyers to be assembled by officers. Angie and Sunny Beach will be driving their truck in the parade. The Drama club students will arrive by 9:15 a.m., walk/ride in the parade and hand out flyers with lollipops.

Drama Open House, Aug 28th: Jen M. is hosting the event. The officers will help with set up and clean up, as well as bringing some informational flyers to hand out to new students/families. It would be great to have boosters available to answer questions from new parents. The boosters offered to bring lawn games (croquet, badminton, ladder ball, etc.). Improv may include a preview of their program, with some simple ice breaker games (optional participation). The boosters suggested having finger foods and drinks, and potentially shifting the time a bit earlier. Jen will confirm the time.

Homecoming Parade, Sept 30th: We need 2 trailers and 2 trucks to pull the floats in the parade. We currently have 1 trailer from the Fawcett family, but still need 1 trailer. Danielle will reach out to the Hilltop Greenhouse, as well as inquire about a truck from her workplace.

Summer Projects list/ Dates:

- Scene shop shelves: New and repairs.
- Platforms: replace 2 x 4s on all of them before Fall. Brad suggested building 8 new ones, then assess the others during set build and see if there are some in bad condition. At that point, we could either salvage or rebuild them. Some platforms could be reused for transporting heavy items.

- Mrs. Palmer would like to schedule the week of August 29th for summer projects. The building will be open at that time.
- DCP offered to pitch in funds for platforms.
- Costume room: Add ladder.
- Paint station: Thoroughly clean all the brushes and rollers.
- A-Frames and large A-frame update. Amy & Nick Jordan. There was a discussion about the materials and design for the new A-frames. For the small A-frames, the boosters liked the suggestion of attaching a plywood panel to a plastic frame, which would help anchor the A-frame and allow for painting on the front. The larger A-frame could potentially be built in 2 large pieces that could be joined together. The Jordans will order/make a prototype, with the goal of having them all built by the second week of September.
- Vacuum: New vacuums are on the list, so that we do not have to borrow them from the custodians. Jen will check with the Vacuum Store on Jackson Road.

Boosters personal info: Jen confirmed with the boosters that it would be ok to add our contact information to the website for parents to be able to contact us with questions. The boosters did not have any concerns with this request.
