

### Club experience

My name is Matthew Biggs and I use the pronouns he/him and will be a junior in the 2021-2022 season. I have been in the drama club for 4 years, as well as been a thespian for 2. I have done every show starting in seventh grade. This includes Tarzan, Sherwood, Fiddler, Wizard of oz, Oliver, Lion King, and all 4 3d shows. In the shows I have been both on stage, and back stage with experience as both tech and cast. I love doing drama and would love to be more involved with the club activities and the people within the club. I have always enjoyed being on and around the stage with the drama club or other clubs outside of the school.

### Why I would do good as an officer

I think that I could do a good job in an officer position because I am good at committing myself to do a task both efficiently and with good quality. I am good at working under pressure. I am a people person and work well with others. I enjoy having things organised and neat, and I understand when there is a time to play and have fun and a time for when we need to get work done.

### Why I would do good at sergeant-at-arms

I feel like I know most people within the club and I think I could do well as a leader for different warm ups and bonding activities. I am good at keeping a positive mindset, as well as helping others stay positive, and making sure that everyone is doing ok. If they aren't I am good at listening, and could help out if they wanted someone to vent to or needed some help with something. My favorite activities we've done in the past were kum-cha and bang as well as my favorite bonding events were laser tag and sledding. I want to keep what makes drama fun for people. Have people understand that drama is supposed to be fun. It's important to make a good show, but we should have fun doing a show. We should make sure to enjoy ourselves for the entire process from auditions to strike. I want to help make people laugh and enjoy themselves here in drama. So hopefully they come back to do the next show! I want to do this by having people be more involved during warm ups, and help make drama be welcoming to new people joining the club for their first show.
