

Hello everyone! I am Joey Hill and I am running to be one of the Improv Captains in my Junior year for the 2020-21 school year. I've been in the Drama club ever since I was in 7th grade, but I joined the Improv troupe during my freshman year. I have a passion for acting and it's something I want to do later in my future, so when I saw improv as an opportunity to enhance my on-stage presence and act without a script, I went to the workshop at the end of my freshman year to check it out. It was there that I found that I really enjoyed improv and I've continued to do it ever since. I've seen what the past two sets of captains have done with the troupe and I believe I can build on what they have done and make Improv even better. First and foremost, I've noticed that both attendance for the weekly Improv meetings as well as the audience size for the performances have steadily decreased throughout the year. To fix this, I'll put up posters in the hallways at school inviting those who wish to attend the weekly Improv meetings along with the workshops. I'll also encourage others to post about our performances on social media, helping spread the word even further. Secondly, I believe a good way to advertise the club is through merchandise. This year, we had finally gotten a t-shirt for the troupe; although, the design was very minimalist. As captain, I'll push for more merchandise to be made to better advertise Improv, and I'll ask for input on the designs of said merchandise. Lastly, I would like to focus more on what makes a good improv scene and how we can implement that into different forms of improv during each Friday. I would also want to do more long form games to the point where we are ready enough to do one or two long form games for the entirety of the performance. These are very ambitious goals to reach in a year; but, I do believe that I can get this done for the better of the Improv troupe.
