

Hello, I'm Nate. I'm interested in the position of Vice President for a lot of reasons. First and foremost, I love this club. In 5 shows I've met so many wonderful new people, and at the same time discovered a huge passion that I want to continue through college and for as long as I can. I'm so grateful and still a little shocked that I went from being a ghou/running crew member this fall to being given the opportunity to assistant stage manage for both 3D and Descendants. These shows all melted together into a fast and exciting year, and I wouldn't trade that for the world.

When Owen told me that the Vice President role means helping out where it's needed and always being ready to jump in, I knew this sounded like the position for me. This mindset embodies the work of stage management, which I love so much. The process of a drama production with all of its different responsibilities that must be delicately balanced and worked on at the same time feels natural to me. Even in the stressful or chaotic moments I don't want the day to end, and I'm always eager for what's next. What's so special about the vice presidency is that it has the capability of being involved with and supporting every other officer position. I can only hope that because of this there would always be work to do. The events that the drama club holds throughout the year are always amazing, and I'd love to be able to help organize them.

I'm very thankful that I have experience with tech, being in the pit, and being onstage. Because of this I can represent everybody in this club and their best interests. I'm sure you know that I'm a techie at heart, and through that I feel I have an obligation to support tech and the tech liaison as much as possible. But I also love music and my time in the pit holds a special place in my heart. I'm really excited to see what the future holds for the pit and how I can be involved. And last but not least, there's our actors. I have so much admiration for the talent we have in this club. Those special random moments this year where I happened to be onstage to see their stardom was incredible. I'm very curious to see what random costumes our directors might throw at me next year. Maybe I'll even audition!

My sentiment towards this club is as follows: do as much as possible for you and be involved as much as I can be. I often think of Mrs. Palmer's pie analogy. No matter how big of a slice I've gotten so far, I want more to do. I want nothing more than to continue this during my senior year. My only regret is not joining this club sooner. In an effort to make up for lost time, I want to be your vice president and have an incredible '23-'24 season together.

Thank you,

Nate Borel
