

Hello, my name is Emily Fawcett and I am running to be Tech Liaison! The 2022/23 year will be my fourth year in DDC as well as my sophomore year at DHS. In my three years with the drama club I have had the roles of Assistant Stage Manager, for Romeo and Juliet and Footloose, and as a Lavs member, for Wizard of Oz, Tarzan, and Little Mermaid! I have also helped with elements for other crews I was not a part of such as costumes quick changes, scene shifts and Lav changes. I believe I have shown my dedication to the club by always offering help to any crew or person in need, volunteering my knowledge to others.

I would not only be honored to be a representative for the club, someone that people could turn to, but also to take over as Tech Liaison after Noelle Whipple. Her shoes may be big ones to fill but I am always willing and striving to learn and educate about tech.

As Tech Liaison, it's very important to be a figure people can turn to. The job requires you to be the intermediate between tech and drama as a whole, which I believe I could do with passion. I love educating others about tech, which is an essential part of the tech liaison figure. Though I am always striving to increase my knowledge, I believe I can be a figure that people turn to for questions revolving around the tech areas.

I have gone to a lot of tech workshops over my time with drama and I love them. They show acknowledgement to tech while educating others on topics they may be interested in pursuing. I would love to continue Tech Workshops, I believe they could help to get more tech members interested and excited about their crew and others.

Thank you for considering me for this position!

Sincerely,
Emily Fawcett
