

My name is Nai Amber and I'm a sophomore currently, but will be a junior for 2022-2023. I started drama in 8th grade with our production of The Wizard of Oz. Then came back again for the 2019 3D show. For both shows, I was a props crew member. I took the 2020-2021 year off because of COVID but came back for this school year (2021-2022). This school year I was a props crew member for The Little Mermaid, a tech crew for the MTI show, a props head of tech in training for Romeo and Juliet, and the props head of tech for Footloose. As sergeant in arms, I believe I can make a change for the better in the drama club. Being a close-knit community is very important to the drama club because we go through some very stressful times, and we have to be there for each other. I've been to many bonding events so I've been able to see how they make a difference in our community. Although I do not have a license to drive me to these bonding events yet; I do plan to get my license over the summer in order to become a better helper for this role. In this position, I would love to take on the role of the smile. I want to be that bright face you see when you walk in. I want you to know that I can keep the energy up and welcome newcomers with a smiley face. I hope you consider me for this position so I can live up to and beyond your expectations to make a better place for everyone.
